## It's National Smile Month

### NATIONAL SMILE MONTH

National Smile Month is the United Kingdom's largest oral health campaign. Formerly 'National Smile Week' it is now one of the biggest not-for-profit dental health events in Europe; it attracts thousands of event coordinators and reaches millions of people with oral health information. National Smile Month is run by the British Dental Health Foundation (BDHF), a UK-based charity.

In 2018, the campaign is taking place between 14 May and 14 June encouraging all dental and health professionals, schools, pharmacies, community groups, colleges and workplaces - in fact anyone with an interest in good oral healthcare - to join in and help educate, motivate and communicate positive oral health messages, and improve the quality of smiles all around the UK.

Many schools are currently showing children how to look after their adult teeth as they grow, teaching them good habits that will last a lifetime. However, since 31% of adults have tooth decay and 29% suffer from regular pain due to their teeth, adult oral health has been a growing concern in the UK. Most shockingly, half the adult population are unhappy with their teeth! So this week is not just for children but for adults too.

#### **National Smile Month will aim to teach these main tips:**

1. Brush your teeth last thing at night and on at least one other occasion with a fluoride toothpaste.
2. Cut down on how often you have sugary foods and drinks.
3. Visit your dentist regularly, as often as they recommend.

# What Our Patients Say About Us....

## "I Travel 140 Miles To Have My Check Up"

When I first came to Lambourn over 10 years ago I had loose twisted front teeth & bleeding from my gums when I brush, you might say my mouth was a mess.

Since then the front teeth have been replaced, straightened and match the rest of my teeth giving me confidence to smile, something another dental practise could not do. Through hygiene treatment and good advice the bleeding ended.

For many years I have feared the dentist due to the old fashioned way teeth were drilled and filled. Now I go regularly to Lambourn for my check up, scale & polish.

So why do I go to Lambourn to see Fatima, Lucy & Liz? It's because they all have the personal touch, a welcoming friendly approach to everyone that walks through the door, your not a number but a patient sometimes fearful of what is behind that door!

I no longer live in Lambourn but I still travel 140 miles twice a year to have my check up. Mad you say, maybe but my teeth look great.

## "You Have Given Me My Confidence Back"

I would like to thank you so much for the wonderful workmanship you did on my teeth.

The veneer and 3 false teeth that sit alongside my normal teeth look amazing and they are colour matched to my teeth perfectly .

Prior to me having my teeth worked on I used to smile without opening my mouth or showing my teeth as I was ashamed at how they looked.

You have given me my confidence back and allowed me to smile showing my teeth and they are absolutely fantastic. I do not think I am exaggerating when I say I have a smile and teeth like a films tars.

I recently had a 50th birthday party and lots of people commented on them , they could not believe that they were false teeth. My gratitude and such warm thanks go to you Fatima for doing an absolutely fantastic job, giving me my confidence back and enabling me to smile again.
